

Signature Pointe

A LIFE CARE SERVICES® COMMUNITY

Why People Choose Signature Pointe

Continuum of Care Under One Roof

The most unique thing about Signature Pointe, is that we offer a full continuum of care—including independent living, assisted living, memory care, rehabilitation and skilled nursing—that ensures needs are met now and in the future, all in one building. This means, loved ones are never separated based on level of care and residents are able to age in place regardless of how their needs change over time.

Heartfelt CONNECTIONS—A Memory Care Program®

For individuals living with Alzheimer's disease or other forms of dementia, **Heartfelt CONNECTIONS—A Memory Care Program®** promotes physical and emotional well-being, supports daily functioning and maintains a sense of satisfaction, dignity and quality of life. The highly individualized memory care program starts with truly getting to know each resident. Our skilled, trained and compassionate team uses the insights gained from each life story to develop person-centered activities and programming for each resident.

Virtual Reality Providing Happiness and Wellness to Seniors

Signature Pointe collaborates with MyndVR, a health and wellness company that provides virtual reality solutions to senior living communities. MyndVR is an opportunity for

people living in assisted living and in the memory care neighborhood who have medical issues or are restricted in their ability to travel, to try something they've always wanted to do. The virtual reality experience is designed to improve people's moods, provide a way to escape to a new reality, reduce feelings of isolation, trigger memories, increase socialization and a sense of connection, and ultimately, lift one's spirits.
